Communication and Language: Putting the National CLAS Standards (National Standards for Culturally and Linguistically Appropriate Services in Health and Health Care) into Practice

Session 13
Georgetown University Training Institutes
July 16-20, 2014

Objectives

• Defining the core elements of CLAS
• Using the Four-Factor Analysis to make informed decisions of the most impacted populations in your state and communities
• Implementing a coordinated approach through workforce development, coalition building and community conversations
• Using plain language to create multi-media and evaluations
• Identifying outcomes from communication and language focused strategies

Our Presenters & Communities
